

**Gabriel Solomon**  
**Senior Vice President**

Gabriel builds, leads and develops the GSMA's public policy agenda and thought leadership programme to ensure that the GSMA plays an influential role in shaping the global regulatory agenda. He is responsible for raising the GSMA's profile internationally through effective communications and relationship development with a large number of key audiences. He is also responsible for developing partnerships with multilateral institutions and industry stakeholders with the aim of identifying and promoting best practice policy and regulation, lobbying governments and regulators accordingly. His functional experience spans public policy, business development, strategy, marketing and finance. Gabriel sits on the Boards of the UK Telecoms Academy, the ITU's Connect the World programme and the Manobi Development Foundation. He has an MBA from INSEAD.
